This is the first office action for application number 10/614,359, An Automotive Seat Assembly having a Self Clearing Drive Nut filed on July 7, 2003.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 10, line 18, "#" has been deleted after "110"

On page 14, line 9, "110, 126" has been deleted and --108, 124-- has been inserted in place thereof.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of the claims in this application are the limitations of an automotive seat assembly comprising a seat frame, a drive mechanism, and a drive nut/member having a through-bore with internal threads that cooperate with the threads of a lead screw, and a second bore formed adjacent the through-bore and extending in the general direction of the through-bore such that the threads of the through-bore are interrupted by the second bore, the interrupted threads of the through-bore acting to clear the threads of the lead screw and cause foreign matter that collects on the lead screw to be captured by the second bore and prevented from entering the thread

interface between the drive member and the lead screw, included in independent claims 1 and 8, in combination with the other elements recited in the respective claims, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
